3:40 PM – Healthy Community Plan

Chris Danley presented information to the group related to food access both from his earlier Healthy Conditions Assessment and from more recent data. After the presentation, committee members were asked to write down their top ten priorities for food access and then they were asked to fill in action plan information under each of the priorities including who will do the work, resources needed, first steps and timelines. The committees priorities will be reflected in the Healthy Impact Nampa Strategic Plan that Chris Danley is preparing and will likely be available during the summer of 2018.
