

If a washout area is full, excess must be properly disposed of or additional washouts need to be made.

x Maintain an updated SWPPP on site with current inspection records.

x A certified Responsible Person must be on site during all grading and construction activities.

Strict adherence ~~WRWKHM07~~ will help ensure an effective Erosion and Sediment Control Program for both the Commercial Developers and the City of Nampa. Deviations from these ~~07~~ result in various methods of enforcement. If you have any questions or concerns please feel free to contact ~~UHRRGPDQ~~ at 468-4442. Thank you for your continued cooperation.
