| COM-03944-2023       | 07/18/2023 |            | Pending       | Return interior shop space to original condition by rebuilding the second floor which will add 2 additional spaces to include returning the upstairs bathroom to original working condition. The previous tenants removed the above prior to the new lease and new tenants. | 2512 E Railroad St     | Doug Kern                            | N/A                             | N/A                           | N/A                      | N/A                          | N/A                             | N/A                       | N/A                              | I will be returning the interior shop space to it's original condition. The previous tenants removed a 22x22 lower office, second floor, and bathroom in the shop space that is needed to house the new tenants. I will be using the original wall positions, floor joist size and type, and spacing to return it to the original condition. I will use the existing electrical circuits to return the 2 20 amp services to both spaces. They were dead ended with the previous demolition.<br>I will also be adding a Mini Split heat pump unit to the new spaces as well to assist the existing HVAC system with heat/cool operations.<br>This space is a simple rebuild of the original design inside the warehouse and will have no effect on the outside of the building. | \$40,000.00              |

The classroom is in a modular. WICAP Community Collaborative in cooperation with Nampa School District is wanting to provide childcare services at Central Elementary and will be named WICAP Central Elementary Childcare. There is an existing modular building separate from the main school building to house the childcare. The childcare would be provided for children ages 0-5. The school will install 3 safety grab bars by the toilets and build up the cement at the thresholds to meet requirements as the architect indicated on the plans they provided.   | \$1.00                   |
