Independent Auditor's Report

Board of Commissioners
Nampa Development Corporation, a discretely presented component
unit of the City of Nampa, Idaho

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund information of Nampa Development Corporation (the Agency), a discretely presented component unit of the City of Nampa, Idaho, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund information of the Agency, as of September 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 1, the financial statements of the Agency are intended to present the financial position and changes in financial position attributable to the Agency. They do not purport to, and do not present fairly the financial position of the City of Nampa as of September 30, 2017, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion has not been modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2018, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

Boise, Idaho
February 21, 2018

This discussion and analysis is provided by management in accordance with GASB requirements to assist the reader in identifying and reviewing key issues and financial activity for the fiscal year ending September 30, 2017. Since this discussion and analysis focuses on the current fiscal year's activities and is a summary analysis, the reader is encouraged to review the financial statements which follow this section to acquire the full information contained in this report.

FINANCIAL HIGHLIGHTS

Total assets increased from \$29.6 million in fiscal year 2016 to \$29.7 million in fiscal year 2017, primarily due to an increase in property tax. Total liabilities decreased from \$31 million in fiscal year 2016 to \$29.4 million in fiscal year 2016 due to the payments made on the 2010 and 2013 bonds, along with the payment made against the land loans and reduction in accounts payable.

Total net position increased by \$1.6 million in fiscal year 2017 for the reasons stated above.

Total fund balance equals \$5.7 million, of which \$2.8 million is restricted for bond debt service; \$2.25 million is restricted for bond revenue allocation and \$697,328 is restricted for Urban Renewal projects.

BACKGROUND

The Nampa Development Corporation (NDC) is an Urban Renewal Agency (the Agency) of the City of Nampa organized on October 16, 2006, under the Idaho Urban Renewal Law, Chapter 20, and Title 50 of the Idaho Code. The Agency was established to oversee redevelopment efforts in deteriorated areas of the community. The Economic Development Redevelopment Plan adopted by the Agency on October 26, 2006, was established to revitalize downtown, develop the North Nampa industrial area and improve commercial arterials. Anticipated projects included a central library, North Nampa industrial infrastructure, a central police station, Nampa Caldwell Boulevard improvements, Franklin Boulevard right of way improvements, and freeway interchange improvements. The central police station has been completed and the library was completed in 2015. The Redevelopment Plan will be completed by December 31, 2030, at which time the Agency's assets will revert to City ownership.

In 2012, a new urban renewal district was created and the project plan for the Historic Mercy Hospital was adopted in 2013. This plan was established to preserve the architectural and historic asset of the community, and provide renewed investment in a neighborhood where an abandoned structure has become a nuisance. Anticipated projects include water line upgrades, streetscape and on-street parking improvements, and a historic facade restoration. In 2016, the Historic Mercy Hospital was demolished due to a fire. The urban renewal district will remain in effect. The plan shall terminate no later than December 31, 2033.

REVENUES AND PROPERTY VALUES

Tax increment financing is the primary source of revenue for the Agency. The amount of revenue received from property taxes is determined by the value of taxable property in excess of the base year, multiplied by the current tax levy rates in effect from the various taxing districts within the Urban Renewal boundaries. If the market value of property increases, in part due to investments made by the Agency, the proceeds from the property tax may increase even with no increase in the tax levy rates. The setting of rates is the responsibility of local governmental entities within allowable limits of state law.

The overall assessed value of real and personal properties within the Urban Renewal boundaries has increased since the inception of the Agency. As of January 1, 2006, the base year, assessed values of taxable property within the Urban Renewal Revenue Allocation Area totaled \$293,694,693. The 2015 tax year increment value for Nampa was \$219,489,446. That value increased in 2016 tax year to \$240,922,078. This represents a 2016 (fiscal year 2017) increase in increment value of \$21,432,632 from (fiscal year 2016). The 2017 property tax year revenue available for 2018 is \$4,721,384 with proposed net property tax revenue available for fiscal year 2018 of \$4,235,990 after the Vallivue School District rebate. Taxing districts involved include: Vallivue School District #139, Nampa School District #131, Canyon County, Ambulance District, Pest Control, City of Nampa, Canyon Highway District #4, Nampa Fire District, College of Western Idaho, Canyon County Mosquito Abatement, and Nampa Highway District #1.1.

OVERVIEW OF THE FINANCIAL STATEMENTS

These financial statements focus both on the Agency as a whole (Agency-wide) and on the General Fund. Viewing governmental activity both as a whole and by individual major fund gives the reader a broader perspective, increases the Agency's accountability, and provides a fuller picture of the financial health and activities of the Agency.

The Agency's basic financial statements are composed of three parts: 1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to more closely parallel the reporting used in private-sector businesses, in that all governmental activities are reported using the same basis of accounting (accrual), and that the statements include a total column to provide information on the Agency as a whole. These statements should better answer the question, "As a whole, is the Agency financially better off or worse off than it was a year ago?"

The Statement of Net Position provides information on all of the Agency's assets, deferred inflows of resources and liabilities, with the difference between them reported as net position (this report includes all current and historical assets). Historical trending of the Agency's net position can provide a useful indicator as to whether the financial position of the Agency is improving or deteriorating.

The Statement of Activities provides information showing changes made to the Agency's net position during fiscal year 2017. Financial activity shown on this statement is reported on an accrual basis (at the time the underlying event causing the change occurs, rather than at the time the cash flows happen). Thus revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

Fund Financial Statements

A fund is a self-balancing set of accounts that is used to keep track of specific revenues and expenditures related to certain activities or objectives. The Agency maintains one governmental fund at this time: the general fund.

Governmental funds use *modified accrual accounting*, which measures current economic resources and focuses on changes to the current financial resources. This information can be useful in evaluating a government's short term financial needs.

The Agency does not have any Proprietary or Fiduciary Funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the information provided in the Agency-wide and fund financial statements. The notes to financial statements start on page 15.

Agency-Wide Financial Analysis

The following Table I reflects fiscal year 2016 and fiscal year 2017 Statements of Net Position. Prior year data is presented for comparison purposes.

Net position over time can serve as a useful indicator of changes in an entity's financial position. Deficit net position decreased by approximately \$1.6 million in fiscal year 2017, largely due to the decrease in debt during fiscal year 2017 and in the increase in property tax revenues. The long-term plan for the Agency is to ultimately transfer the ownership and corresponding asset value to the City of Nampa, with the exception of the portion that is owned by the private developer, once the bonds are paid in full.

Table I
Statements of Net Position
September 30, 2016 and 2017

	Fiscal Year 2016	Fiscal Year 2017
Current and other assets	\$ 9,498,574	\$ 10,244,040
Capital assets	20,159,570	19,514,778
Total assets	29,658,144	29,758,818
Current liabilities	126,993	118,660
Noncurrent liabilities	31,036,165	29,307,380
Total liabilities	31,163,158	29,426,040
Deferred inflows of resources	3,998,996	4,235,990
Net position		
Net investment in capital assets	4,572,710	4,676,993
Unrestricted	(10,076,720)	(8,580,205)
Total net position	\$ (5,504,010)	\$ (3,903,212)

The Statements of Activities (Table II) provides a summary of the Agency's operation for the fiscal year ended September 30, 2017 and 2016. Prior year data is presented for comparison purposes.

Table II
Statements of Activities
For years ended September 30, 2016 and 2017

	Fiscal Year 2016	Fiscal Year 2017
Revenues		
Program revenues		
Charges for services	\$ 56,751	\$ 64,193

Property taxes	4,169,941	4,632,298
Interest income	8,110	23,883
Miscellaneous	102,116	52,637
Total revenues	4,336,918	4,773,011
Expenses		
Urban renewal	1,291,963	1,705,968
Interest expense	1,519,797	1,466,245
Total expenses	2,811,760	3,172,213
Change in Net Position	1,525,158	1,600,798
Net position-beginning	(7,029,168)	(5,504,010)
Net position-ending	\$ (5,504,010)	\$ (3,903,212)

Financial Analysis of the Agency's Funds

As of the fiscal year end, the Agency's ending combined fund balance is \$5,796,260, an increase of \$456,504 from the previous year. The fund balance increase is due to property taxes. Of the total ending fund balance, approximately 87.97% is restricted for the bond debt service and revenue allocation, and the remaining 12.03% is available to fund urban renewal project expenditures in the next year.

General Fund Budgetary Highlights

Actual to budget comparisons are found in the required supplementary information. A draft budget was created as shown under "Original" in "Schedule of Revenues, Expenditures, and Changed in Fund Balances – Budget and Actual – General Fund". The advertised, published and adopted final budget numbers are shown under "Final" within the same schedule. A budget amendment was completed to update projections for increment revenue and Vallivue rebate numbers received from the County in January 2017. The actual total expenditures came in \$16,682 less than budgeted.

Capital Assets

There were no capital purchases of building and improvements in FY2017. At fiscal year end, the Agency's investment in capital assets consisted of \$2,418,758 in land, which was reduced during fiscal year 2017 by \$87,906. In fiscal year 2017, the old library building was sold which resulted in a \$588,833 reduction to the ending building and improvement account from the prior year. The total net capital assets at the end of fiscal year 2017 was \$20,831,851. See Note 4 for additional information.

Debt Administration

During fiscal year 2017, the Agency paid \$1,711,860 in principal payments; of that amount \$351,860 was to the City of Nampa and \$1,360,000 was for the payment of the 2010 & 2013 Revenue Bonds. The remaining balances are, \$14,530,000 due on the 2010 bonds, and \$14,535,000 due on the 2013 Revenue Bonds. See Note 6 for additional information

FISCAL YEAR 2017 ACTIVITIES

Projects in progress and/or completed in fiscal year 2017 meet the commitment to economic development within the geographic boundaries of the Urban Renewal District. Key activities of the Agency projects are identified below.

- Continued the process for working with DEQ on an extended Phase I for the half block of property.
- Continued working in partnership with the Downtown Nampa Business Association on the Idaho Main Street Program and the National Main Street Program.
- Worked with several potential projects looking to locate within the Urban Renewal Boundaries: Some within the Downtown Historic District and some within the North Nampa Industrial Area.
- Finished working with legal counsel, the bond trustee, and the City on an internal policy for the Urban Renewal Plan and any future projects.
- Streamlined processes for discounted or free parking with the garage during certain events.
- Appointed three new citizens-at-large board members to the Urban Renewal Board effective July 1, 2017 to comply with recent changes in the urban renewal law.
- The land loan with the City of Nampa was completely paid off in fiscal year 2017.

Interest	23,883
Miscellaneous	<u>52,637</u>
Total revenues	<u>4,717,283</u>
Expenditures	
Current	
Urban renewal	1,061,176
Debt service	
Principal	1,711,860
Interest	<u>1,487,743</u>
Total expenditures	<u>4,260,779</u>
Net Change in Fund Balance	456,504
Fund Balances, Beginning of Year	<u>5,339,756</u>
Fund Balances, End of Year	<u><u>\$ 5,796,260</u></u>

Nampa Development Corporation
 Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental
 Funds to the Statement of Activities
 Year Ended September 30, 2017

Net change in fund balances-total governmental funds \$ 456,504

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an individual cost that meet the capitalization threshold are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. The Agency had depreciation of \$526,829 in the current period. This is the amount of depreciation expense in the current period. (526,829)

In the statement of activities, the loss on the sale of assets is reported, whereas, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of asset sold. (117,963)

The government funds report the proceeds of long-term debt as financing sources, while repayment of the principal of long-term debt is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, however, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences in the treatment of long-term debt and related items is as follows:

Repayment of bond principal	1,360,000	
Amortization of bond discount	(4,832)	
Amortization of bond premium	21,757	
Interest expense - revenue allocation bonds	3,514	
Repayment of note principal	351,860	
Interest expense - note payable	1,059	
		1,733,358

Because some property taxes will not be collected for several months after the Agency's fiscal year end they are not considered available revenues in the governmental funds, but are instead counted as unearned and unavailable tax revenues. They are, however, recorded as revenues in the statement of activities. 55,728

Changes in net position of governmental activities \$ 1,600,798

Note 1 - Summary of Significant Accounting Policies

The Nampa Development Corporation, an Urban Renewal Agency (the Agency) of the City of Nampa (the City), was organized on October 16, 2006, under the Idaho Urban Renewal Law, Chapter 20, and Title 50 of the Idaho Code. The Agency was established to oversee redevelopment efforts in deteriorated areas of the community. The Economic Development Redevelopment Plan adopted by the Agency on October 26, 2006, was established to revitalize downtown, develop the North Nampa industrial area and improve commercial arterials. Anticipated projects include a central library, North Nampa industrial infrastructure, a central police station, Nampa Caldwell Boulevard improvements, Franklin Boulevard right of way improvements, and freeway interchange improvements. The Redevelopment Plan will be completed by December 31, 2030, at which time the Agency's assets will revert to City ownership. Under governmental accounting principles, the Agency is considered a discretely presented component unit of the City.

The financial statements of the Agency have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Agency's accounting policies are described below.

The accounting and reporting policies of the Agency relating to the funds included in the accompanying basic financial statements conform to generally accepted accounting principles applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the GASB, the American Institute of Certified Public Accountants in the publication entitled Audits of State and Local Governmental Units.

Financial Reporting Entity

For financial reporting purposes, the Agency is included as a discretely presented component unit in the City of Nampa, Idaho's financial statements. In prior years the Agency was considered a blended component unit of the City of Nampa; however, due to changes in State legislation the Agency's Board of Commissioners is no longer comprised solely of members from the City of Nampa's governing body. Consequently, the Agency is now considered to be a discretely presented component unit of the City of Nampa. The Agency provides urban renewal services to the City and its citizens. These statements present only the funds of the Agency and are not intended to present the financial position and results of operations of the City of Nampa, Idaho in conformity with generally accepted accounting principles.

Government-wide and Fund Financial Statements

The *government-wide financial statements* (the statement of net position and the statement of activities) display information about the Agency as a whole. These statements include all financial activities of the Agency. The statement of activities presents a comparison between direct expenses and program revenues for each function of the Agency's governmental activities. Direct expenses are those that are clearly identifiable with a specific function. Depreciation expense for capital assets that can specifically be identified with a function are included in its direct expenses. Interest on general long-term liabilities is considered an indirect expense and is reported in the statement of activities as a separate line item. Program revenues include 1) fees and charges paid by customers and other recipients of goods or services offered by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

The *fund financial statements* provide information about the Agency's general fund. The emphasis of fund financial statements is on major governmental funds. The Agency has no non-major funds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows. Revenue from property taxes is recognized in the fiscal year for which taxes are levied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The Agency considers property taxes available if they are collected within 30 days after year end. A 90 day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Accounting

The Agency reports the following major governmental fund:

- **General Fund** – the Agency's operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Cash and Cash Equivalents

The Agency considers all highly liquid investments, with a maturity of three months or less when purchased to be cash equivalents.

Property Taxes

In accordance with Idaho law, property taxes are levied in dollars in September for each calendar year. Levies are made on or before the second Monday of September. One-half of the real property taxes are due on or before the 20th of December. The remaining one-half is due on or before June 20th of the following year.

The Agency has no direct taxing power. The amount of revenue received from property taxes is determined by the amount of taxable property value and by the aggregate tax rate that the taxing entities within the Revenue Allocation Area set. The Agency receives the taxes collected on the increased valuation of property in the Revenue Allocation Area since January 1, 2006. There is a legal obligation to rebate back to the Vallivue School District a portion of the levy on a semi-annual basis.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and the fund balance sheet will sometimes report a separate section for deferred inflow of resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to future periods, so will not be recognized as an inflow of resources (revenue) until that time. The Agency has only has two types of items that qualify for reporting in this category relating to property taxes.

The government-wide statement of net position reports the unavailable property tax revenue as a deferred inflow of resources. The balance of the deferred inflow of resources as of September 30, 2017, will be recognized as a revenue and increase in net position at the start of the next fiscal year. This treatment is a result of the property tax calendar in the State of Idaho.

The final item reported as deferred inflow of resources arises only under a modified accrual basis of accounting. Accordingly, the item, unavailable property tax revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period that the amounts become available.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) if purchased or constructed. Assets with an individual cost of more than \$40,000 for equipment and \$50,000 for buildings and improvements and \$75,000 for infrastructure are capitalized. Donated fixed assets are recorded at their estimated fair value at the date of donation. Depreciation is provided on the straight-line basis over their estimated lives. Interest incurred during construction is not capitalized on general fixed assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Risk Management

The Agency is exposed to various risks of loss related to theft of, damage to, or destruction of assets. The Agency participates in a public entity risk pool, Idaho Counties Risk Management Program (ICRMP), for general liability insurance. The Agency's exposure to loss from its participation in ICRMP is limited only to the extent of their deductible.

Bonded Indebtedness

In the government-wide column of the financial statements, long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which is essentially the same as the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are recognized in the period the bonds are issued.

In the fund financial statements, governmental fund types recognize long-term obligations as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Revenue Allocation Bonds

Nampa Development Corporation Revenue Allocation Bonds, Series 2010 were issued to finance the acquisition and construction of a public safety facility and related improvements, to provide a reserve fund and to pay costs of issuance of the Bonds. Principal and interest on the bonds are payable solely from future tax revenues of the Agency.

Nampa Development Corporation Revenue Allocation Bonds, Series 2013 were issued to finance the construction of a Library Square Project, to provide a reserve fund and to pay costs of issuance of the Bonds. Principal and interest on the bonds are payable solely from future tax revenues of the Agency.

Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for all governmental fund types.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reported period. The actual results could differ from those estimates.

Fund Accounting

The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance – amounts that are in nonspendable form (such as inventory or prepaid accounts) or are required to be maintained intact.

- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by the Agency itself, using its highest level of decision-making authority (i.e., Commissioners). To be reported as committed, amounts cannot be used for any other purpose unless the Agency takes the same highest level action to remove or change the constraint.
- Assigned fund balance – amounts the Agency intends to use for a specific purpose. Intent can be expressed by the Commissioners or by an official or body to which the Commissioners delegate the authority.
- Unassigned fund balance – amounts that are available for any purpose.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Board of Commissioners adopted a Fund Balance Policy that recommends a spending order of restricted, committed, assigned and then unassigned unless the Board approves otherwise.

Note 2 - Cash and Cash Equivalents

At September 30, 2017, the book balance of the Agency's deposits was \$5,786,918. The Agency's deposits consisted of money markets and short-term cash equivalents.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely impact the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The Agency does not have a policy addressing interest rate risk. As of September 30, 2017, the Agency is invested in money market accounts which are not subject to interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Agency does not have a policy addressing credit risk. As of September 30, 2017, the Agency is invested in money market accounts which are not subject to credit risk.

Concentration of Credit Risk

When investments are concentrated in one issuer, this concentration represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. GASB has adopted a principal that governments should provide note disclosure when five percent of the total investments are concentrated in any one issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The Agency does not have a policy addressing the limitations on the amount that can be invested in any one issuer.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The custodial credit risk for investments is the risk that in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Agency does not have a policy restricting the amount of deposits and investments subject to custodial credit risk.

The bank ledger balance for cash deposits at September 30, 2017, consists of an interest bearing checking accounts balance of \$430,014, and a money market account balance of \$258,707. The interest bearing checking account and money market account balance are each covered by FDIC insurance up to \$250,000. The Restricted cash equivalents consisted of \$2,255,826 held by Bank of New York in a revenue allocation fund, and \$2,843,110 held by Bank of New York in debt reserve funds. The debt reserve funds are covered by FDIC insurance up to \$250,000. The cash deposits and restricted cash equivalents of \$5,037,653 are not collateralized or insured.

Note 3 - Restricted Assets

Restricted assets are required to be segregated as to use and are therefore identified as restricted assets. Restricted assets in the Agency are restricted pursuant to the bonds issued to finance a public safety facility and Library Square.

Note 4 - Capital Assets

Capital asset activity for the year ended September 30, 2017, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities				
Capital assets, non-depreciable				
Land	\$ 2,506,664	\$ -	\$ (87,906)	\$ 2,418,758
Capital assets, depreciable				
Buildings and improvements	18,621,916	-	(588,833)	18,033,083
Equipment	380,010	-	-	380,010
Total capital assets	<u>21,508,590</u>	<u>-</u>	<u>(676,739)</u>	<u>20,831,851</u>
Accumulated Depreciation				
Buildings and improvements	(1,235,017)	(450,827)	558,776	(1,127,068)
Equipment	(114,003)	(76,002)	-	(190,005)
Total accumulated depreciation	<u>(1,349,020)</u>	<u>(526,829)</u>	<u>558,776</u>	<u>(1,317,073)</u>
Governmental activities capital assets	<u>\$ 20,159,570</u>	<u>\$ (526,829)</u>	<u>\$ (117,963)</u>	<u>\$ 19,514,778</u>

Note 5 - Unavailable Revenues

Revenues are considered unavailable in accordance with the modified accrual basis of accounting for the governmental fund financial statements. The following revenues are measureable but do not represent available expendable resources for the governmental fund financial statements for the fiscal year ended September 30, 2017:

Property taxes	<u>\$ 4,444,888</u>
----------------	---------------------

Note 6 - Changes in Long-Term Liabilities

Long-term debt outstanding as of September 30, 2017, consisted of the following:

Bond Payables

\$18,000,000 Series 2010 Revenue Allocation Bonds Payable due in annual installments of \$400,000 to \$1,825,000 through 2030; interest at 3.0% to 6.0%, including unamortized bond discount of \$60,405. Bonds maturing on March 1, 2021, are redeemable on any interest payment date beginning March 1, 2020, at par plus accrued interest. Bond is secured by pledged revenues.

\$ 14,469,595

\$18,320,000 Series 2013 Revenue Allocation Bonds Payable due in annual installments of \$590,000 to \$4,235,000 through 2031; interest at 2.4% to 5.0%, including unamortized bond premium of \$302,785. Bonds maturing on and after September 1, 2025, are redeemable on September 1, 2024, at 102.5% of par plus accrued interest. Bond is secured by pledged revenues.

14,837,785

\$ 29,307,380

The following is a summary of long-term liability activity of the Agency for the fiscal year ended September 30, 2017:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Bonds payable	\$ 30,425,000	\$ -	\$ (1,360,000)	\$ 29,065,000	\$ 1,400,000
Bond discount	(65,237)	-	4,832	(60,405)	-
Bond premium	324,542	-	(21,757)	302,785	-
Note payable - City of Nampa	351,860	-	(351,860)	-	-
Long-term liabilities	<u>\$ 31,036,165</u>	<u>\$ -</u>	<u>\$ (1,728,785)</u>	<u>\$ 29,307,380</u>	<u>\$ 1,400,000</u>

The Agency has pledged a portion of future tax increment revenues to repay \$18,000,000 in revenue allocation bonds issued in September 2010 to finance a public safety facility, and \$18,320,000 in revenue allocation bonds issued in April 2013 to finance the Library Square Project. The bonds are payable solely from incremental tax revenues and net parking revenues generated from the Library Square Project. Incremental tax revenues were projected to produce 125 percent of the debt service requirements over the life of the bonds. Total principal and interest remaining on the bonds is \$41,976,309, payable through September 2031. For the current year, revenues amounted to \$4,666,469, \$1,360,000 of principal was paid and \$1,475,428 of interest was paid on bonds payable outstanding.

The annual requirements to amortize all debt outstanding at September 30, 2017, are as follows:

Year ending September 30	Governmental Activities	
	Principal	Interest
2018	\$ 1,400,000	\$ 1,436,297
2019	1,445,000	1,393,838
2020	1,500,000	1,337,646
2021	1,560,000	1,278,687
2022	1,635,000	1,202,155
2023-2027	9,530,000	4,650,460
2028-2031	11,995,000	1,612,226
	29,065,000	\$ 12,911,309
Bond discount	(60,405)	
Bond premium	302,785	
	\$ 29,307,380	

Total interest cost incurred during 2017 was \$1,466,245.

Fund Balances, End of Year			<u>\$ 5,796,260</u>	

Note 1 - Legal Compliance - Budget

The Nampa Development Corporation follows these procedures in establishing the budgetary data reflected in the financial statements:

1. An agency shall, by September 1 of each calendar year, adopt and publish, as described in Section 50-1002, Idaho Code, a budget for the next fiscal year. The Agency prepares a budget by estimating the probable amount of money necessary for all purposes for which an appropriation is to be made, including interest and principal due on the bonded debt, itemizing and classifying the proposed expenditures by department, fund, or service, as nearly as may be practicable, and specifying any fund balance accumulated under Section 50-1005A, Idaho Code. To support such proposed expenditures, the Agency shall prepare an estimate of the total revenue anticipated during the ensuing fiscal year for which a budget is being prepared, classifying such receipts by source as nearly as may be possible and practicable.
2. The proposed budget is published in the local newspaper.
3. A public hearing is conducted to obtain citizen comments.
4. The budget is formally adopted through approval by the Board of Commissioners and published in the local newspaper.
5. The Agency may amend its adopted budget using the same procedures as used for the adoption of the budget. The original budget was amended for the fiscal year ended September 30, 2017.
6. Management has the authority to amend budgets within individual funds without seeking approval of the governing body. The detail at which appropriations are legally adopted extends to the fund level.
7. Budgets for funds are adopted on a basis consistent with GAAP. The level of control (level at which expenditures may not exceed budget) is the fund.

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Commissioners
Nampa Development Corporation, a discretely presented component
unit of the City of Nampa, Idaho

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund information of the Nampa Development Corporation (the Agency), a discretely presented component unit of the City of Nampa, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise Nampa Development Corporation’s basic financial statements, and have issued our report thereon dated February 21, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Agency’s financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Eide Bailly LLP".
