Comments on Competitiveness of New Rate

Note #1 - The consumption volume for sewer only customers will be based on average monthly volume for the respective SE classifications.

Note #2 - No customer consumption data exists.

Reasons Why Fee Change is Needed and What New Funding Will be Used For

See July 16, 2018, Wastewater and Water Cost of Service Rate Study. Increase in wastewater utility rates, fees, and charges will be used for operations, maintenance, and systematic replacement of supply and infrastructure in order to continue to provide continuous and reliable utility services.

* If an individual fee is increased more than 5.0%, or if the proposed fee is new, public notice and a public hearing is required.
